2022-2023 SPRING SEMESTER FLUID MECHANICS FINAL EXAM, Date:05/06/2023

Name: **Surname:** **Student ID:**– – – – – – – – –
b a

QUESTION 3 (25p): Calculate the reaction force that will occur on the concrete block (anchor block) strike by the water jet from the pressure tank shown in the figure. Show the forces acting on the control volume.

All dimensions are in meters. Calculations will be made for unit width of the concrete mass.

D=0.1a

h=3.b

P=100a N/m^2
